Meet the Founder & Director

Monè Greybe

I started MG Core Solutions with one goal in mind: to help businesses spend less time on administration and more time on growth. From payroll administration and recruitment to virtual assistance and business support, we're here to help you streamline your operations and lighten the load.

As a single mother, I know firsthand what it means to juggle many responsibilities at once and still show up with dedication and heart. That same resilience and work ethic is what I bring to every client I serve – because I understand the value of reliable support you can lean on.

You focus on growth. We handle the rest.

Let's Build a Stronger Business Together

Every business is different, so our solutions are tailored to your specific needs and scale. Rather than a one-size-fits-all price list, we put together a custom quote based on the services you need and the size of your business – so you only pay for the support that makes a real difference.
